

# Star T5

Star (view from below)

Star (view from above)

A very versatile fitting that can be offered in surface or suspended format. The suspended version has the choice of direct or direct/indirect light output. Both single and twin lamp versions are available. The body colour is offered in RAL 9006 (white aluminium) as standard with a satin (semi specular) aluminium louvre. Different coloured bodies, specular aluminium louvres and linkable versions are available to special order - please enquire.

Please note that as this range can be either surface mounted or suspended, the 2 wire suspension sets need to be ordered separately if the fitting is to be suspended. Please refer all 80w enquiries.

**Emergency** - Three hour maintained integral emergency conversion available for most of the range - please enquire. Details [here](#).

## Ordering details and dimensions (mm)

### Direct - Suspended or Surface Mount
