

Wall Mounted WW

The WW range have a curved metal perforated body and internal opal sheet with a clear prismatic sheet on top. The effect is to illuminate upper walls and ceiling whilst also giving an attractive downward effect through the perforations.

The WW is designed to be wall mounted and when used in conjunction with recessed or surface fittings, LG7 can be achieved. The WW ideally complements our **Jupiter** range. Plain non-perforated WW version available to special order.

Ordering details and dimensions (mm)

<u>Catalogue number</u>	<u>Lamps</u>	<u>A</u>	<u>B</u>	<u>C</u>	<u>F/C</u>
WW 118/+	1 x 18w	135	645	65	490
WW 136/+	1 x 36w	135	1255	65	1095
WW 158/+	1 x 58w	135	1555	65	1392
WW 1PL40 HF/+	1 x TC-L 40w	135	645	65	490
